SUMMARY

Crypto-native ecosystem operator who grows communities **and** closes deals. I convene and grow developer communities across the Base and Farcaster ecosystem: hosting Spaces and builders' nights, mentoring early builders, and running onchain community games. I have also sold across my whole career: forex client acquisition, insurance sales in banking, and full-cycle selling of my own freelance services to dozens of businesses (prospect → pitch → close → deliver). I ship what I talk about: live mini-apps and a paid x402 API, built fast with AI coding tools like Claude Code. The rare generalist who can rally a community, run a pipeline, and ship the product.

ECOSYSTEM GROWTH & COMMUNITY

Farcaster Builders of India, FBI / InnerCircle · OG member & mentor

2023 - Present

- Mentored early builders entering the ecosystem; met and supported builders at fellowships and crypto events across India to drive onchain participation.

Founder, Based Games, onchain community game

2 seasons

- Created and ran "*Based Games*," an onchain community game in the **gaming** vertical, for 2 seasons, driving recurring builder engagement; now in its 3rd season.

Live Hosting, Base India & InnerCircle

Nov 2025 - Apr 2026

- Hosted Twitter/X Spaces: invited and interviewed guests across the Base and Farcaster communities, growing reach and engagement, including sessions on x402 and onchain payments.
- Hosted **builders' nights** with live project demos, giving builders a stage to ship in public.
- Ran a live chess tournament for *den.show*; created and hosted "*Chess & Crypto*," a live show pairing chess with crypto news and community discussion.

EXPERIENCE

Crypto-Gaming Research Analyst, DeQuest

Dec 2021 - Apr 2023

- Ran deep research across **100+ crypto-gaming projects**, evaluating token design, incentives, and traction to inform partnership and positioning decisions.
- Designed user quests and wrote crypto-news newsletters that engaged and grew the community.

Freelance Digital Marketing & Events, Goa

2019 - 2020

- Sold and delivered marketing services full-cycle to **dozens of Goa businesses**: prospecting, pitching, and closing websites, social, and design work, then delivering it solo.
- Created and ran weekly open-mic events, building a recurring local community around the venues.

Community Support / MetaMask Expert, Consensys / VillageDAO

2023 - Apr 2024

- Onboarded and supported MetaMask users across EVM networks in a decentralized-support experiment: failed transactions, network configuration, and wallet recovery.

Founder, Fresh2O

2020 - 2021

- Bootstrapped a beachside smoothie café solo: full physical buildout plus product, ops, and marketing; profitable until COVID and Cyclone Tauktae destroyed the location.

Earlier, sales & finance: Kotak Mahindra Bank, insurance sales (2018); Angel Broking, investment advisor, forex client acquisition (2012); AVS, US trucking logistics, accounts & ops from India (2016-2018); Weblink India, sales (2014); IBM, QuickBooks support (2011).

SELECTED BUILDS

GLADAITORS, Farcaster mini-app betting game on Base. AI gladiators fight onchain, players bet with a 10% house cut. Built end-to-end with Claude Code. [link](#)

Farcaster Intel API, Live x402 v2 pay-per-call API for Farcaster data, listed on x402scan; built with Claude Code. [link](#)

AI-native builder, Ship real onchain products end-to-end using AI coding tools like Claude Code; learned the crypto and dev fundamentals from zero in 2021.

SKILLS

Ecosystem & Growth: community building & engagement, hosting & moderating Spaces and live events, builder mentorship & onboarding, partnerships, full-cycle sales (prospect → pitch → close), content & newsletters.

Crypto & Technical: AI-assisted product building (Claude Code), shipping Farcaster mini-apps and x402 onchain payment integrations, full-stack basics (Next.js), onchain / Solidity literacy, the Base and Farcaster ecosystem, crypto & protocol research, forex / crypto trading.

EDUCATION

B.Com (Economics), University of Lucknow

2009
